

The Pentair® Fleck® 5800 Series of control valves sets a brand new standard for adaptability and innovative features. At the same time, they come from a company known for decades of expertise in the water industry, millions of units in service, and a tradition of rock solid reliability.

This combination spells success for residential water conditioning dealers. It brings together the features homeowners prefer with the time-tested component designs professionals can trust for years of customer satisfaction.

**Stronger flow rates** – 21 gallons/minute continuous, 27 GPM peak, 17 GPM backwash

**Faster setup time** – 10,000 RPM fast-positioning motor with 12 volt DC drive

**Soft water refill** – for better brine saturation and a cleaner brine tank

**Time of day backup** – a built-in super capacitor maintains system data up to 12 hours after a home power outage

**Easy servicing** – cartridge-based seal and spacer design for quick and easy replacement

**Optical technology** – echn/MCIDh c 49 ⅓EMC 26
